

Welcome to the KVR Quads & Motorcycles

There is a problem on the Osprey and Link Lakes section of the KVR. Here's what you can do to help us to continue to have motorized access to this amazing transportation corridor.

The Problem:

Speeding, Noise, Dust, Trail Damage, Disrespect of other trail users - Horses, Hikers, and Cyclists

There are very powerful forces at work to ban all motorized use of the KVR. The actions of a few users are putting access for all motorized users at risk.

Near Osprey Lake, in the past few years, there have been three quad accidents and one motorcycle accident resulting in six riders being seriously injured.

How You Can Help:

Respect other trail users - Stop for horse riders, turn off your engine & let them pass you - slow down to a crawl before & after passing hikers & cyclists. Share the Trail - **Respect Speed Limits** - limit noise & dust. Minimize damage to the KVR by keeping a steady slow throttle. Don't create ruts by making "Donuts" or "Dig outs".

Do not drive back and forth on the trail or on roads in front of adjacent property owners. Use the KVR to get to and from other trails that lead to fun and adventure.

Join a Club - Your local club, thru ATVBC, represents you to government and lobbies for access and advancement of the sport. Help them help you.

Need info on local trails? Call Rob Miller of Osprey Snowwheelers ATV/Snowmobile Club 250-295-6420 - or check out: www.ospreylake.ca

Have Fun - Ride Aware - Wear Helmets and Protective Gear - and return home safe.
